New THREADS

Users 13+

Threads is part of the Instagram platform.

When users first sign up to Threads they are immediately given the choice of a public or private profile. If users decide to have a public profile then anyone on or off Threads can see, share and interact with their content.

How to access privacy settings:

1. Select your profile page.
2. Click on the two bars in the top right hand corner of the profile screen to access settings.
3. Select 'privacy'.
4. This then enables you to check your account is set to private.
5. Whilst in the 'privacy' tab you can also 'block' other users.

How to hide offensive words, phrases or emojis:

1. Select profile page.
2. Click on the two bars in the top right hand corner of the profile screen to access settings.
3. Select 'privacy'.
4. Select 'hidden words'.
5. Here you have the option to hide replies that contain offensive words, phrases or emojis.
6. You can also custom words, phrases and emojis.

Reporting other users:

1. When using the homepage and viewing other users content, you can select the three dots above a users post in the top right hand corner.
2. You then have the option to 'report' that user.
3. Other options available also include - 'mute', ' unfollow' and 'hide'.

Other privacy settings:

Some settings, such a restricting, apply to both Threads and Instagram and can be managed through Instagram. This includes users you have 'blocked'.
