

FOCUS ON...

WHAT IS IT?

Wizz is a free social networking app that allows users to swipe and chat with real people online, similar to dating apps. This includes people near you & around the world. It suggests users "swipe to find a friend" and chat live "instantly with people from around the world". Users can also join a community and .."Meet new people. Let loose. Belong together".

SAFETY FEATURES

- When viewing a user profile you can select the three dots, to access blocking and reporting.
- To block the user, select 'Block'.
- To report the user, select 'Report'.
- Users can choose from the options available by accessing 'Report this user to moderators'.

ADVICE FOR KEEPING CHILDREN & YOUNG PEOPLE SAFE

RISKS...

- Interaction with strangers.
- Peer pressure.
- Content being screenshot, maliciously edited & shared.
- Users are grouped by age. However, adults have still been found amongst children's profiles.
- 'Friends' can be selected based on their location, age, gender and interests. This leaves a user very vulnerable given personal information shared.
- Exposure to inappropriate content.

TOP TIPS...

- Check the app yourself before making a decision.
- Check privacy settings, and parental controls.
- Educate children & young people on the risks of sharing personal information.
- Get them to consider the risks associated with being online, how to seek support and report.
- Talk about real friendships - risk of 'online friends' and a 'friend of a friend'.
- Value children & young people, build their self-esteem. Most risks online come back to self-affirmation.

Take time to check it out for yourself. Always promote yourself as a source of support, and someone to talk to if a child or young person has any concerns.
