

FOCUS ON...

WHAT IS IT?

Wizz is a free social networking app that allows you to swipe and chat with real people online. This includes people near you & around the world. You can connect with other users based on things like age & location... freaky! This should ring alarm bells, it comes off as a creepy dating app at best, and a dangerous social space for children & young people.

SAFETY FEATURES

- When viewing a user profile you can select the three dots, to access blocking and reporting.
- To block the user, select 'Block'.
- To report the user, select 'Report'.
- You can choose from the options available by accessing 'Report this user to moderators'.

ADVICE FOR KEEPING SAFE ONLINE

RISKS...

- Interaction with strangers.
- Peer pressure.
- Content being screenshot, maliciously edited & shared.
- Users are grouped by age. However, adults have still been found amongst children's profiles.
- 'Friends' can be selected based on their location, age, gender and interests. This leaves you very vulnerable given personal information shared.
- Exposure to inappropriate content, such as nudes or porn.

TOP TIPS...

This app really is not suitable for children or young people. However, if you do use it consider:

- Your privacy settings.
- Consider the risks of sharing personal information.
- Consider the risks associated with being online, how to seek support and report.
- Remember that 'online friends' are not real friends, they're strangers.
- Behave online like we would offline.
- Remember how amazing you are. Don't be so quick to give away your personal information, including images.
